Proposition to Aid in Building a Willamette Valley Railroad

The following ordinance was introduced in the City Council last (Wednesday) evening. It was read a first and second time, and referred to the Committee on Streets and Public Property

AN ORDINANCE to provide for the repair of Front street, and to secure a supply of material for public buildings and improvements, and to levy a special tax therefor

SECTION 1. *The City of Portland does ordain as follows* That, for the purpose of providing for the keeping in repair of Front street, and for the providing of gravel, stones, brick, clay, lumber and timber, for the construction of the streets and city buildings of the city of Portland, and for the execution of the provisions of this Ordinance, the corporation known as the "Oregon Central Railroad Company" of Portland, Oregon, be, and is hereby authorized and requested to issue two hundred and fifty bonds, of the sum of one thousand dollars each, bearing interest at the rate of seven per cent. per annum, commencing on the first day of January, 1868, and payable on the first days of July and January, thereafter, semi annually, for the term of twenty years, said bonds having thereto attached forty interest coupons to each bond, each coupon representing the half yearly interest on its respective bond, said coupons to be signed by the secretary of the said company, and countersigned by the Treasurer of the said city, and the said interest coupons, of said two hundred and fifty bonds (numbered from one to two hundred and fifty inclusive) to be made payable by the city of Portland, at the City Treasury at said city of Portland, Oregon.

SEC 2. That in order to carry out the provisions of the first paragraph of Section one of this ordinance, there shall be levied and collected in the year 1868, in the same manner as the other city revenue is, or may be collected, a tax of four mills on the dollar, of all the taxable property of said city, in addition to the other taxes, the same to be paid in the gold or silver coin of the United States, and the moneys to be derived from such tax shall be and is hereby appropriated and set aside to constitute a separate fund, to be known as the "Railroad Fund," out of which fund the said interest coupons on said two hundred and fifty bonds hereinbefore described, shall be paid, for the current year of 1868, as they may fall due and be presented for payment at the said City Treasury, and if there shall not be in the Treasury in this said fund for this current year sufficient money to pay the said coupons for this year of 1868, or if there shall be a surplus, after paying said coupons for this year, the City Treasurer shall make such arrangements in this respect, as is provided in Section three of this ordinance.

SEC. 3. That in order to further carry out the provisions of the first paragraph of section one of this ordinance, there shall be levied and collected in the year 1869, and annually thereafter, for the period of nineteen years, in the same manner as the other city revenue is, or may be collected, a tax of four mills on the dollar of all the taxable property of said city, in addition to other taxes, the same to be paid in the gold and silver coin of the United States, and the money to be derived for such tax shall be and is hereby appropriated and set aside to constitute a separate fund to be known as the "Railroad Fund," out of which fund the said coupons for interest on said two hundred and fifty bonds hereinbefore described, shall be paid as they may fall due and be presented at said City Treasury from time to time, for said period of nineteen years, and on the payment thereof by the City Treasurer, said interest coupons shall be taken up and cancelled, and if at any time there shall not be a sufficient sum of money in said "Railroad Fund" to pay such interest when due, then an amount sufficient to make up such deficiency, shall be taken from the "General Fund" for that purpose, or the City Treasurer shall make such other contracts and arrangements as may be necessary to make up such deficiency; and whenever on the first day of January of any year there shall remain a surplus in said "Railroad Fund" after the payment of the interest on said bonds for such year, such surplus shall be paid into the "General Fund," *Provided always*, (and said bonds and coupons shall so express) that the City of Portland shall never be liable to pay the principal, or any portion thereof, of said bonds.

SEC. 4. That the provisions of Sections one, two and three of this ordinance, and the agreement of this city to pay the interest referred to in said sections is made upon the express condition and consideration that said Railroad Company does hereby contract and agree, by the filing of its agreement hereinafter referred to, keep in good condition and repair the street known as "Front" street, from a point opposite the Portland Gas Works for the period of twenty years, from the first day of July, 1868, and further, that the said Railroad Company shall do, and at all times for the said period of twenty years, transport and convey over their railroad, all public messengers required to travel at the expense of said city, and also transport and convey over their railroad free of charge, or other compensation for transportation, than is provided in this ordinance, all stone, gravel, earth lumber and timber, or other materials required to be transported over said Company's railroad, necessary and required for the construction of the streets and public buildings of said city, Provided, that said company is not herein understood to contract to rebuild, as a whole, the surface of said "Front" street with Nicolson or other pavement.

SEC 5. That in order to avail themselves of the provisions of this ordinance, the said railroad company is hereby required to file with the Treasurer of the city, within thirty days from the passage of this ordinance, their written agreement, signed by the President and Secretary of said company, and sealed with their corporate seal, binding said company to faithfully perform the conditions and considerations, on the part of said company, named in section four of the ordinance

PETITION TO THE HONORABLE CITY COUNCIL OF THE CITY OF PORTLAND

We, the undersigned citizens and voters of the city of Portland, most respectfully petition your Honorable body in favor of the passage of the ordinance now before the City Council, entitled "An Ordinance to keep in repair Front street, &c." And it is hereby agreed between the Oregon Central Railroad Company of Portland, Oregon, the said City Council, and the undersigned petitioners, that the bonds referred to in said ordinance, shall be delivered to Wm S. Ladd and ——— by the Treasurer of said city, after signing the interest coupons therein named, and said Ladd and ———, shall act as trustees between the said company and said body, and shall sell, negotiate or hypothecate said bonds in New York city or elsewhere, upon the best terms said company can secure, and they (said Ladd and ———) shall disburse the proceeds of said sale or hypothecation in the purchase of such railroad iron, locomotives, cars and railroad equipment as said company shall designate, at the best terms for cash, and the balance of such proceeds to be paid out in Oregon in the grading and construction of said company's railroad from the city of Portland and through the Willamette valley via Cornell Pass

THE UNION REPUBLICAN NATIONAL CONVENTION.—This Convention is called to meet at Chicago on the 20th of May. The place selected is a happy augury of success. In 1860 the Republican National Convention met at Chicago, and selected as a candidate for President an eminent citizen of Illinois, of all persons in the United States the best fitted to guide the Ship of State through the storms which succeeded. The turbulence of armed conflict has subsided, but the people are looking again to Illinois for a leader known to stand in the most advantageous position for harmonizing conflicting interests, and who is, under the circumstances, endowed with greater ability to restore the Union, on a lasting basis than any other of our public men. The State which furnished our President to conduct the country safely through one of the most terrible wars of the present century, is about to claim the honor, with the willing acquiescence of the remaining States in the Union, of naming his successor. There is, therefore the highest propriety that the body laying him in nomination should be remembered hereafter as the Second Chicago Convention, the first having discharged its functions with such remarkable sagacity that the results of its action revolutionized, elevated and saved the nation.—*Boston Transcript.*

The National Finances.

SPEECH OF SENATOR CORBETT OF OREGON

On the 13th December, Senator Corbett delivered a strong speech in the Senate in support of his bill to substitute gold notes for legal tender notes, and to facilitate resumption of specie payments. The entire speech is quite too long for our columns, though we may find room for portions of it at a future time. For the present we give an article from the Sacramento *Union*, detailing the leading points of the speech, with comments by that paper upon Senator Corbett's plan

Senator Corbett's speech is such as might be expected by a representative of the Pacific coast. He does not stultify his constituents by advocating the continuance of a system of irredeemable paper money. He shows that our productive industry and commerce are crippled by the artificial, delusive and fickle valuation which such a system provides. The balance of trade has gone against us the last four years to the amount of $853,904,142. We have been obliged to pay this in exports of gold to the amount of $275,316,772, and of bonds and stocks to the amount of $408,-087,370. We have sent these because importers found them the cheapest things they could find on the market. We have cheapened our gold by throwing it out of circulation. We have cheapened our bonds by keeping the currency irredeemable, and lately, by threatening to redeem them in currency. Senator Corbett thinks the true policy is to return as soon as possible to specie redemption. That will fix our scale of values and enable us to export something besides gold and bonds. He argues that the Pacific slope has been able to export a half more grain in proportion to its population than any other portion of the country, because here the gold standard of values has been preserved. In other sections agricultural exports have decreased rather than increased in the last four years, and will continue to do so if we again expend the currency. The Senator says, what is also said by the New York Chamber of Commerce in a recent report, that none but venturesome traders will invest in the products of the country for export as long as they are liable to find their entire cargo worth less in gold than that they sent, by reason of a depreciated currency. He believes, therefore, that the first thing to be done is to return as soon and as fast as possible to a specie basis. On that alone can we build up either the business or the credit of the republic. His bill proposes to reach this result by a gradual substitution of gold demand notes for the present legal tenders. It authorizes the Secretary of the Treasury to sell $7,000,000 of these gold notes monthly to the highest bidders, and to retire the greenbacks received for them. The amount in circulation is never to exceed ninety per cent. of the gold on hand, so that there will be no question about their redeemability. He estimates that $90,000,000 may thus be issued, buying up $117,000,000 of greenbacks, and leaving only $179,000,000 of the latter actually in circulation, while the Government clears $27,000,000 by the operation. The outstanding greenbacks will of course be enhanced in value and the effect will be to bring the currency up to par value. The gold notes may be held by the banks as a reserve, may be paid for customs or for interest on the debt, or for taxes where the accounts are made up on a gold basis. He estimates that thirty or forty millions of them will get into permanent circulation on this coast, thus giving the Treasury that amount of gold as a basis for the issue of more notes, and that the provision allowing payment of taxes in these notes or in gold will add to the present gold income of the Government. All other contraction of the currency except by this method is to be stopped. The receipts from customs being about twice the amount monthly sold of the gold notes, there will be kept an ample supply of gold in the Treasury.

This plan is certainly based upon correct principles. "It gives us a redeemable currency, and it utilizes the gold which is now lying stagnant in the Treasury. It is also an exact retracing of the steps by which we reached our present condition. Our first Government currency consisted of fifty millions of these "demand notes," as they were called. Some may question whether it would not be better to buy up our gold bearing bonds at market rates with our surplus gold while we can do so at seventy-five to eighty cents on the dollar. That, too, would throw the gold upon the market, but probably not in so current a form as the demand notes.

Upon the matter of paying our bonds in currency Senator Corbett is sound. Especially in regard to the proposition to hand over to the National Banks their securities and give greenbacks in exchange, he uses no soft words. Unlike some persons, he does not regard these holders of bonds as being particularly deserving of punishment. On the contrary he thinks they have special claims to consideration. They did not use a cheap make their money out of the war. They were, mostly those who had previously invested their property in the banking business and found themselves practically obliged to take Government bonds and go into the form of National Banks. Their old circulation, secured by State stocks, mortgages, etc., was taxed out of existence, and the Government required deposit of its own bonds as security for their new circulation. It might just as well now call upon them to give up State bonds, mortgages, etc., and receive greenbacks for them as to require it in the case of their Government bonds. Besides, the National Bank system keeps $300,000,-000 of our bonds at home, where the interest is distributed among our own people, whereas paying them off in currency would send them abroad. The distribution of our bonds among the banks and among the people at large serves to secure our credit. These views of the Senator are not of the Pendletonian sort. They have the ring of true metal and will circulate as good currency everywhere. He does not hesitate to call a breach of the public faith by its right name—repudiation. He believes that when the nation pledged itself to "dollars" it meant something definite, and is not now at liberty to construe its contract differently. He justly regards it as the first duty of the nation to establish a fixed standard of values, and not to be swerved from this purpose by projects which seek expansion and depreciation of the currency under the plausible pretext of paying off the debt. His figures and arguments show that the most costly and unprofitable form of indebtedness for us just now is that which exists in the shape of an irredeemable paper money

A DEMOCRAT ON IMPEACHMENT.—A Washington dispatch of December 13th says

There is a good deal of talk in Congressional circles this evening, about the brief speech made in the House this afternoon, by Judge Woodward, the new Democratic member from Pennsylvania, and late Chief Justice of that State. There were not more than fifty members present, and only a dozen or two spectators in the galleries, but the speech was in some respects the most notable one of this session. It was upon the law of impeachment, and produces a great shock among his Democratic colleagues, and corresponding delight among those who wanted the President impeached. He took strong ground against the doctrine on this point laid down by Judge Wilson, Chairman of the Judiciary Committee, and even went beyond that taken by the majority of the committee. He held not only that an impeachable offence need not necessarily be an indictable offence, but that the Senate itself must be judge on its common sense and conscience of what are high crimes and misdemeanors under the constitution, and neither common law nor statute law furnished protection to the President against a trial for impeachment

THE STEEL KING OF PRUSSIA.—We are accustomed to think that we are a great manufacturing people, but our large establishments, particularly in the working of metals, are entirely overshadowed by some of the huge English workshops. And even the English are left behind now, and little Prussia, which has latterly grown to be great Prussia, boasts an establishment for the working of steel alone which surpasses anything in the world. Krupp, the steel king of Essen, has, within the past forty years, built what is in effect, a town by itself as his workshop. He employs 10,000 workmen, and with their wives and children, and there is already a respectable population. Last year he turned out 62,000 tons of cast steel, valued at $7,500,000, and involving a daily consumption of 1,000 tons of coal. Of guns alone he has delivered 3,500 altogether, valued at $5,250,000. Such facts as these should make us ashamed of the restricted use we are able to make of the vast resources confided to our hands.

Reconstruction Policy.

We have already on several occasions shown where Johnson departed from Lincoln's policy of reconstruction. The annexed paragraph from the Chicago *Tribune* refers to the same matter:

In the special message under consideration, Mr. Johnson makes use of the action of the Cabinet in the case of the earliest attempt to reconstruct North Carolina, as a justification of his whole policy, so far as it touches the rebel States. He claims that the policy was a legacy from Mr. Lincoln, and that every member of Mr. Lincoln's Cabinet, Mr. Stanton included, approved it. This may be so, but with limitations that put an entire new face on the whole matter. General Grant in his testimony, settled in advance the value of Mr. Johnson's assertion. The policy was temporary. The action was an expedient. The State was in a condition properly described as chaotic. There was no law, no order, no authority in [illegible] the one or command the other. The appointment of a Governor was a necessity which Mr. [illegible] unquestionably recognized as imperative. [illegible] is not a line of evidence to show that that Governor would not have been [illegible] from the [illegible] as a military governor [illegible] with the [illegible] of a conqueror. [illegible] have been his designation or function. General Grant [illegible] and reiterates the declaration that the whole arrangement was to be temporary, subject, of course, to the approval or [illegible] of Congress; and such, beyond doubt, was the [illegible] of the plan as it had suggested itself to Mr. Lincoln's mind; and so every member of the Cabinet then understood it. Mr. Johnson's [illegible] permanent authority in [illegible] his attempt to fix the qualifications of voters, and to do many other things that have no relation to the Executive function, were so many acts of [illegible] tion which Mr. Lincoln [illegible] never advanced upon any authority what[illegible] this late endeavor to shuffle upon the [illegible] statesman the responsibilities for the [illegible] fantasies of the living [illegible] is [illegible] is false. Mr. Lincoln's [illegible] ever worn by any American, is not [illegible] to cover offences like those of which his [illegible] sor is guilty.

ANDY PUFFS HANCOCK.—[illegible] another message to Congress. This one is a puff for General Hancock for [illegible] which he [illegible] that the [illegible] not be restricted to [illegible] clude all kinds of unpardoned rebels. [illegible] this order Andy chuckles and blows in the [illegible] terous manner. [illegible]'s [illegible]

For a long time the Copperheads have been unable to present to the people a platform enunciating any definite policy or proposing any consistent course of action; but it is gratifying to observe that the scattered elements which form what are known as "Democratic principles," are beginning to coalesce, and that the platform which the party is to stand on hereafter is taking a fixed shape and beginning to appear in its true form. The Kentucky Legislature has taken the initiative in providing the party with a platform. About a month ago the following resolution passed the Senate of that State by the decisive vote of 25 ayes to 5 noes:

Resolved, By the General Assembly of Kentucky, That a select committee, composed of five members of the House and five of the Senate, be appointed to ascertain, and report as soon as practicable to the General Assembly of Kentucky, the assessed value of slaves taken from the citizens of Kentucky by Federal Executive proclamation, by acts of Congress, and by the amendments to the Federal Constitution (known as article 14); and also the value of such slaves taken from each county of this Commonwealth; and that said committee report what steps are necessary and proper to enable citizens of this State to obtain compensation from the Federal Government for said property so taken."

This is a very good beginning for a Copperhead platform. And having made so excellent a commencement, the party will hardly stop here. It has already virtually pronounced for the repudiation of the national debt, and no doubt will soon pronounce for it without equivocation. The next step will naturally be to pay the Confederate debt, and with a platform of this character the [illegible] of the party will be in [illegible] with its [illegible] principles. For if the war was [illegible] and unconstitutional; if slavery was wrongfully abolished; if the Government had no right to coerce the revolted States, it follows that reparation must be made for the losses of the slave [illegible], that the debt [illegible] was created by the Government in an unjust and unconstitutional war upon sovereign States ought to be [illegible], and that these States [illegible] for the [illegible] they [illegible] against the aggressions of the Federal Government. All this is the legitimate result of "Democratic" principles, and Kentucky has the honor of being first to assert them.

But not to go further at present than the doctrine that Kentucky has already [illegible] for, ought not those who are restive under the load of taxation to be sincerely grateful to the Copperheads for holding out this prospect of paying for the slaves of the South? This has all along been a [illegible] of the rebels; and as that class of men have always [illegible] in [illegible] it is [illegible] that will when the Democratic party has been in power, they would, under like conditions, again find those who would enforce their [illegible]. This danger is not [illegible]; give the rebels and Democrats [illegible], and who would answer for [illegible]? The late [illegible] holders in every part of the South are [illegible] of [illegible], and this [illegible] by the Kentucky Legislature is only a [illegible] of the [illegible]. What man who supported the Government [illegible] and [illegible], the [illegible] with power over this matter? The only safety is to [illegible] out of power.

[illegible] W. Duke, a [illegible], has written a [illegible] what the Democracy of Kentucky should require their candidate for the Presidency to [illegible]. He says that [illegible] is not the man to trust"— [illegible] he did not give the Confederate [illegible] of the North all the aid which they had a right to expect of him; that General Sherman is not a [illegible] he has a very de[illegible] —which is an allusion to the [illegible] manner in [illegible] and that Pendleton is [illegible] the [illegible] man, because he was a [illegible] and a friend of [illegible] during the war, and is now in favor of [illegible] the [illegible] and paying for the slaves who were set free by the unconstitutional [illegible] of our [illegible].

Bariah says that there "are probably not less than [illegible] Democrats in Oregon, [illegible] full share of the intelligence of the State." The [illegible] at least two thousand too high; and, if they embrace a full share of the intelligence of the State, this intelligence is very poorly represented by their organs. [illegible] out of address the Democratic party has in this State [illegible] talk of [illegible] the people. We have [illegible] Bariah's pretensions to [illegible], and shown that he is lacking in the [illegible] of political and historical [illegible]. The [illegible] of his vanity is his [illegible] would [illegible] for the [illegible].

About [illegible] years ago, the valuation of real and personal [illegible] in New York city and county was [illegible] 000,000, and taxation [illegible] $1,750,000. This year, [illegible] the [illegible] value had by the last valuation risen only to $730,000,000, the comptroller's computation for taxes calls for about $22,000,000. The taxation has grown [illegible] $4.50 per [illegible] to over $30, [illegible]. It should be added for the benefit of those who prate about the "increase of taxes under Radical rule," that New York City is the stronghold of Democracy on the continent, and has [illegible] such during a [illegible] generation.

"Should Congress in its wisdom [illegible] to [illegible] ever Oregon," etc.—*Herald*.

This twaddle, this nonsense, this clap-trap, this balderdash, this ridiculous namby-pamby, this [illegible], contemptible, [illegible] prate, this jargon of an ignoramus, this shallow babble of a dunce by predestination as well as by practice, is about an average [illegible] of the writing that appears daily in the paper which claims to be the leading Democratic organ of Oregon.

The proceedings of the "unreconstructed element" of the South who have taken the name of "Conservatives," show that Southern Conservatism is simply repressed rebellion. But what else should we expect from a class of "Conservatives" who ceaselessly plotted and fought with demoniac fury to destroy the Constitution and the country. The dictionary tells us that a Conservative is one who wishes to preserve existing institutions; what a name is it for the rebel destroyers to assume!

The colored people of Salem give notice that "they expect to pay all the expenses of the Evening School now being held by them, without aid from other citizens. No person is authorized to collect funds in their name." Here's a theme for Abbott of the *Democrat*. In Democratic *patois*, "niggers is gettin' sassy."

The preliminary survey for the Oregon Central Railroad, (West side,) as was announced a short time ago, has reached Hol[illegible]' Gap in Polk county. The locality of this Gap is 56 miles south and 27 miles west of Portland. The road, starting from this city, will reach that place within sixty miles.

A Great Bull Doing Mischief.

[From the Missouri Democrat.]

There is one feature of Mr. McCulloch's policy which he apparently desires to have overlooked, since, in his elaborate message, he makes no defense of it, and avoids mentioning it. We refer to his hoarding of gold. The report shows that the balance in the treasury, July 1st, 1866, was $132,165,621 18; that the balance in the treasury July 1st, 1867 was $180,399,701 79; that the coin in the treasury at the later date was $103,419,638 02, and that on the 1st of November, 1867, the hoard of gold amounted to $111,540,217 35. The official estimate of the Comptroller of Currency is that the entire amount of coin in the country is less than three hundred millions. How much is hoarded by other misers we do not know, but the Secretary of the Treasury alone keeps locked up in his chests, nearly half the gold in the country. It lies idle. It does no good to the people, no good to anybody, unless it gladdens the heart of a miserly Secretary. Meanwhile, we have to pay taxes on the debt which this hoard of gold might reduce. One hundred and eleven millions of gold will buy over one hundred and fifty millions of United States bonds, and reduce the interest which we have to pay yearly by nine millions in gold, or thirteen millions in currency. Mr. McCulloch's hoarding propensity, therefore, makes our taxes, say thirteen millions a year heavier than they ought to be. Economy is very well. The Secretary demurely recommends little two-penny savings here and there, which are very desirable. But what is the sense of plugging up the gimlet-holes when the Secretary himself keeps such an extravagant bung-hole steadily running? If we are to have economy, let us begin by stopping this costly propensity of Mr. McCulloch to keep half the gold in the country in his pocket.

The Secretary is called by some a great financier. Perhaps he is. But he gravely asks, in another part of his message, why it is that greenbacks are so depreciated—why does gold demand a premium of forty per cent? If he is not dishonest, then we are forced to conclude that he does not know enough of finance to see that his hoarding of gold makes gold high. Specie has been partially demonetized, but it is an article of prime necessity in commerce. Now, suppose some great bull should get half the wheat in the country into his possession, and hold it, adding to his store whenever he could! Would not the price of wheat inevitably rise? And then suppose the great wheat bull should publish an official document declaring that currency was depreciating, and there was far too much of it in the country, because it took a great deal of currency to buy a very little wheat! Would not everybody declare that the document was either supremely foolish or supremely dishonest? But Mr. McCulloch hoards half of the gold in the country, and thus, gold being scarce, it takes a great deal of paper to buy a little coin, and he then says, "there is too much paper in the country; otherwise, why should it be so depreciated in value? Therefore we must contract the currency!" It is very hard to account for such reasoning without impugning either the sense or the honesty of the Secretary.

If Congress wants to raise the value of greenbacks, and thus get nearer a specie basis, let it compel Mr. McCulloch to use all his surplus gold in buying United States bonds in open market. That will reduce the debt by about $150,000,000, and reduce the interest to be paid yearly by about $9,000,000 in gold. Moreover, it will put the gold into circulation and make it plenty—so plenty, that those who use gold will get it cheap. One hundred millions of coin will not lie idle anywhere. There is only one great financier wise enough to keep that sum out of active employment. Ordinary men would be in haste to put the money where it would return something. [illegible], between holders anxious to sell gold, there would arise competition, and the price of gold would fall. Bonds would rise; greenbacks would rise; our debt would be [illegible], and our taxes reduced; prices of most articles of life would fall (as the value of greenbacks rises) and times would be easier at once; and all because one great bull had been driven out of the gold market! Is it not simple?

The House has done one excellent thing in voting to deprive the Secretary of the power of contraction. Let it do still more to relieve the country and to earn the gratitude of the people by compelling the Secretary to open his vaults, to scatter his enormous hoard, and to stop depreciating the value of government currency.

HELMBOLD'S EXTRACT BUCHU gives health and vigor to the frame and bloom to the pallid cheek. Debility is accompanied by many alarming symptoms, and if no treatment is submitted to, consumption, insanity, or epileptic fits ensue.

DR. HOSTETTER'S STOMACH BITTERS should be in the possession of everybody in the mining region. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of diarrhœa, dysentery and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a curative. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters.—Sold by all druggists and dealers everywhere.

HODGE, CALEF & CO., Agents,

Portland, Oregon.

HELMBOLD'S EXTRACT BUCHU and IMPROVED ROSE WASH cures secret and delicate disorders in all their stages, at little expense, little or no change in diet, no inconvenience and no exposure. It is pleasant in taste and odor, immediate in its action and free from all injurious properties.

Portland R. A. C. No. 3.—Regular Convocation on the second Thursday evening of each month at Masonic Hall, No. 16 North Front street.

By order of M. E. H. P.

GOING! GOING! GONE! ! ! were the words that the graceful and admiring skaters uttered as they saw the ice gradually spoil and made unfit for their sport. While the ice is going KOHN & FISHEL still remain, and are already preparing to receive a large invoice of Fine and Fashionable Clothing for the Spring trade, and shall hereafter, as heretofore, be the leaders of fashion, have the best goods, and sell them at the lowest price.

NEW TO-DAY.

NOTICE IN BANKRUPTCY.

DISTRICT COURT OF THE UNITED STATES FOR the District of Oregon—In Bankruptcy. In the matter of R. A. Sutherland, Bankrupt—District of Oregon, SS.

A Warrant in Bankruptcy has been issued by said Court against the estate of R. A. Sutherland, of the County of Multnomah and State of Oregon, in said District, he having been adjudged a bankrupt upon petition of his creditors, and the payment of any debts and the delivery of any property belonging to said bankrupt to him or to his use, and the transfer of any property by him, are forbidden by law. A meeting of the creditors of said bankrupt, to prove their debts and choose one or more assignees of his estate, will be held at a Court of Bankruptcy, to be holden at Portland, in said District, on the 17th day of February, A. D. 1868, at 11 o'clock A. M., at the United States Court of said District.

COMMON COUNCIL PROCEEDINGS.—Common Council met last evening, pursuant to adjournment. Mayor Chapman in the chair. The Board was called to order and the roll called by the Clerk. Present, Councilmen Besser, Burch, Fechheimer, Hallock, Porter and Rosenbaum—6. Absent, Councilmen McCraken, Mulkey and Ripley—3. The minutes of the last meeting were read and approved.

REPORTS OF COMMITTEES.

The Committee on Streets and Public Property, to whom was referred the claim of P. G. Baker, for balance due for work done on Second Street, amounting to $67 80, was received and read. The report stated that having advised with the City Attorney relative to the same, the committee find that the claim could be collected, and recommend that a warrant be drawn for the amount. On motion, the report was adopted and a warrant ordered drawn for the amount.

The same committee reported a certificate for work done by E. D. Hutchinson on the streets, amounting to the sum of $85 40, which was read, report adopted, and a warrant ordered drawn for the amount.

A report from the Committee on Fire and Water was received and read, stating that the said Committee, as provided by ordinance, had purchased the steam fire engine belonging to Multnomah Engine Co., No. 2, and recommending that a warrant be drawn in favor of the company for the amount of the purchase money, $4,500, which was adopted.

REPORTS OF OFFICERS.

A report was received from Geo. H. Belden, City Surveyor, relative to the extension of Morrison street, accompanied with plat and map of survey, which was read and adopted.

Also, a report from the same officer relative to the extension and survey of Alder street, was received, read and adopted.

CLAIMS.

Bill of the Willamette Iron Works, for sewer grates, $64 17, and for cistern tops, $125, was paid.

Bill of Freidman & Co., for a safe purchased for the use of the City Auditor's office, amounting to $500, was read, and on motion, referred to the Committee on Accounts and Current Expenses.

ORDINANCES.

An ordinance introduced by Councilman Fechheimer, appropriating the sum of two hundred dollars for the purchase, and to pay the expenses of the removal of a safe for the City Auditor's office, was read first and second times.

An ordinance introduced by Councilman Besser, providing for the keeping in repair Front street, to supply material for public buildings and improvements, and for the levying of a special tax to defray the expenses of the same, was read a first and second times, and on motion of Councilman Hallock, was referred to the Committee on Streets and Public Property.

[This ordinance relates to giving aid to the construction of a railroad, by loaning the credit of the city, and will be more fully understood by the publication of the ordinance elsewhere in to-day's paper.]

An ordinance introduced by Councilman Fechheimer, establishing the grade at the intersection of North Fifth and E streets, was read, and passed under a suspension of the rules.

Councilman Fechheimer also offered a resolution, which was read and adopted, instructing the City Treasurer to sell the legal tender notes now on hand, and place the proceeds in the general fund, and report his doings to the Common Council at the next regular meeting.

Adjourned.

GERMAN LODGE OF ODD FELLOWS.—A number of the German members of the Odd Fellows' Lodges in this city, have taken the initiatory measures for the organization of a German lodge here. For this purpose they have taken withdrawal cards from their lodges and have petitioned the Grand Master of this jurisdiction for a dispensation and charter, and the matter is now pending. The movement does not originate in any disaffection with the existing lodges; but the lodges here have so much increased in numbers that the organization of a third lodge is deemed advisable. The parent lodge Samaritan No. 2.—had long ago become overgrown, and some months since gave birth to Hassalo Lodge, and then again to Orient Lodge. With the exception of Chemeketa Lodge, No. 1, Salem, no other lodge in the jurisdiction has been so prolific. The offspring of Samaritan Lodge will soon number three, a rather goodly family, considering the population of the city.

AN IMPUDENT KLEPTOMANIAC.—A fellow who answers to the name of Charles Chapman was arrested Tuesday evening for stealing a pair of blankets. He had before appropriated a coat lent him by Mr. Gilbert, bookkeeper at Vaughn's mill. He was, however, discharged after an examination of the charge of stealing. Last evening he exhibited his ruling passion by going into Mr. Levy's store, picking up a pair of blankets as he entered the door. Walking back to where Mr. Levy was standing, he offered the blankets for sale. Mr. Levy bought them because he knew he had a pair in his store to match. The fellow pocketed the money and walked out. Mr. Levy at once went forward to compare the blankets with his own, when he discovered the trick that had been played upon him and ran immediately out, overtook the chap and made him disgorge the money. Chapman was arrested subsequently and will be called to account this morning, before the Recorder.

ODD FELLOWS' RELIEF COMMITTEE.—Some notice of the organization of a General Relief Committee in this city, composed of representatives from the several lodges located here, was published not long since in this paper. The committee and the officers change with the expiration of each regular term of the lodges. The representatives from the several lodges for the term beginning January 1st, are as follows: From Samaritan Lodge—C. A. Dolph, C. H. Marvin and C. C. Phillips; from Hassalo Lodge—J. H. Mitchell, W. W. Spaulding and O. P. Mason; from Orient Lodge, East Portland—Archie Foque, J. P. Garlick and A. J. Allen. Last Sunday these representatives had a meeting and elected the following officers for the term: C. H. Marvin, President; O. P. Mason, Secretary; W. W. Spaulding, Treasurer.

A VAGRANT.—The "Hungry Brother" mentioned yesterday morning as soliciting the moderate loan of half a dollar, under the plea that he "hadn't eat a bite'n two days," was around yesterday, in a semi-fatigued condition still appealing to the people, "for Gott's sake, gif feller 'alf dollar." We learn that he has been around in the same manner for several days and has been caned once for practicing imposition upon a kind-hearted gentleman who bought him a dinner at a hotel. When he gets a half dollar he invests it, in the quickest possible time, in whisky. He should be treated as a common vagrant.

ARRESTED.—The "thaw" which arrived at this city on Tuesday morning, and over which everybody had so much glorification, was arrested early in the evening of the same day and is now in the lock-up, under the vigilant keeping of Jack Frost. Its term of imprisonment is, at present, one of the most uncertain things which could be mentioned. Alas for the hopes of those who thought they saw the frostwork of winter dissolving into

"The bloomy flush of early spring."

GYMNASIUM.—A first rate opportunity for athletic exercise is afforded to our young fellows "or any other man," by the gymnasium fitted up by the Pioneer Base Ball Club, and under the present charge of Mr. M. G. Morgan. The rates of tuition are quite reasonable, and the facilities for improvement of muscle are very good. Sedentary persons, at least, should avail themselves of its benefits.

SPILLED MILK.—A "personal circumstance" occurred to another of our city milkmen yesterday morning: His horse took fright, ran away, careered up one street and down another, demoralized the wagon, turned it over and watered the street, (figuratively), with the contents of the milk cans. The milk man didn't cry over his spilled milk, though.

SOIREE.—Last evening "a few friends" met, not by chance, at Prof. Cardinell's Hall, where they had a pleasanter little party than often gets together in this "vale of tears." At twelve o'clock, when we left, they were still "tripping the light, fantastic toe," and enjoying themselves as highly as mortals know how.

ICE BREAKING.—The steamer *Alert* was at work again yesterday upon the big job of breaking a channel in the ice, without, however, accomplishing much. The ice is reported to be from six inches to a foot in thickness, and much strengthened by the unfavorable turn which the thaw took, Tuesday night.

THE FUN GOES ON.—The freeze-up of Tuesday night restored the chronic skatists to their normal condition, and the fun goes on. Judging from the numbers out yesterday, the rage for "skeatin'" has not abated a jot. The ice is said to be in better condition than ever.

WHO KNOWS THEM?—The Sacramento *Union* of the 11th, gives an account of the drowning, at Colusa, on the 6th instant, of Sylvester Rousslu, and adds: "Deceased was married in San Jose two or three years ago, and has a wife and child residing somewhere in Oregon."

ACCEPTANCE.—It is stated that the school directors have accepted from the contractors, the new school house in North Portland, with the condition annexed that they complete certain specified things, or deduct $500 from the contract price.

A BIG THING ON ICE.—The members of the ancient order of Hornibusques, as will be seen by the published order of the President, will skate to-day on the South Portland lake. Look out for fun.

EXAMINATION POSTPONED.—The examination of Mr. Jas. Evans, on the charge of assaulting Thos. Heffernan with a dangerous weapon, was yesterday postponed till nine o'clock this morning.

"HORNIBUSQUES."—All members of the "Hornibusques," in good standing, are ordered to meet, in full regalia, at the Upper Lake with skates onto 'em, this afternoon at two o'clock, sharp. By order of the President.

SAN FRANCISCO MARKETS.—The Sacramento *Union* of the 11th inst. has a review of the San Francisco markets, dated the 9th, from which we quote the following:

The General Market has been tolerably active for this season of the year. Coffee continue weak, with a downward tendency in prices. The *Golden City* brought 500 boxes via the Isthmus. [illegible] has been in better demand. There are symptoms of an advance. Quite extensive sales of Rio have been made at 19½c. Coal is firm at the recent advance. Dry Goods and Clothing are offering at unprecedentedly low prices, with but few buyers. At auction, goods in this line are unsaleable except at ruinous prices. Fish are dull; scarcely any Cod is changing hands, the general belief being that it must be lower in price than at present. Oregon Salmon is offering at $7 50 ⅌ bbl. Fruits are exceedingly flat since the holidays, Cranberries being the only kind in request; 212 kegs Eastern, brought by the *Moses Taylor*, were taken up at once at [illegible]. Oregon sells at 90@$1 ⅌ gallon. Lumber is increasing in prices. Oils are quite inactive. Devoe's Coal Oil has been sold at 47½@48½c, and China Nut at 65c ⅌ gallon. Rice is decidedly lower, with increasing supplies. The steamer *China* brought 22,278 mats; the *Holder* has 845 tons. The *Firefly* brought 600 bags from Honolulu. Choice No. 1 China is selling at 9½c. Teas is firmer. The steamer *China* brought 5,390 packages, and the *Santiago* *Holder* 23 tons, only a portion of which has been exported; still prices are upwards. Nearly 200 boxes Pouchong sold at 53½c ⅌ lb. Sugars are languid, pending the action of the refineries. It is generally thought there will be a reduction in rates. Spirits are in better demand, with heavy sales of a speculative character. There are 600,000 gallons domestic in bond, besides the largest stock in the hands of the trade.

The Produce Market continues in a healthy condition. The demand for wheat and flour, for export, has never been better than at present. Despite all the schemes to "bear" the market, wheat has advanced to $2 70 for good shipping grades.

The Wheat receipts have been steadily increasing since the cessation of the rain. Of other produce the supplies have been light, as will be seen by reference to the annexed figures:

Wheat, 62,332 sks. Barley, 5,768 sks. Oats, 1,670 sks. Flour, 32,301 sks. Potatoes, 13,413 sks. Hay, 3,490 bales. This includes 27,001 sks Flour and 2,862 do Wheat from Oregon.

The Exports during the week embrace 64,636 sks of Flour, 30,717 do Wheat.

Flour.—The demand for export has been unusually heavy; upwards of 30,000 bbls have been purchased during the week, about two-thirds for New York. The shipments for China are increasing. Latest telegraphic advices from New York quote California Flour at $13 75; superior grades are selling for 50c more. There is no change in prices here yet, but the increased value of Wheat will improve the price of Flour.

Wheat.—The speculators have made a very handsome thing out of the manipulation of the telegraph. Wheat at Liverpool, advanced 27c ⅌ cental at the commencement of last week—a fact which was not generally known here till Monday last. The latest dispatches quote California Wheat at 16s 6d. Somebody bought about 200,000 sks here at $2 60@2 65 ⅌ 100 lbs—holders jumping at the supposed advance, till the truth was known, when the shippers paid $2 70. If the truth had been known in the first place, the farmers could have obtained the highest price for the 200,000 sks. Why was not the truth published by the Merchants' Exchange Board, or the Grain Exchange, which pretends to keep the public posted? Sales have been very heavy, including 1,300 sks sundry at $2 20; 5,000 fair at $2 55; 15,000 do at $2 60; 12,000 do at $2 62½; 75,000 do at $2 65; 20,000 do choice at $2 67½; 22,000 do do, for export, at $2 70; 960 do, for seed, at $2 85—market closing firm at $2 60@2 72½ for fair to extra choice.

Wool.—Continues excessively dull. The clip of the past year exceeds 10,000,000 lbs, of which less than 7,000,000 lbs have been exported. I have no sales to report.

Hams and Bacon.—California Bacon is abundant at 12½@13c, and Oregon at 11@12c. California and Oregon Hams are held at 13@14c. California lard is selling at 10½@11c; Eastern from 10 to 11½c.

GROCERIES, PROVISIONS AND PRODUCE.—Our readers will have noticed that Messrs. W. H. Bennett and John Harlow recently dissolved partnership in the grocery, provision and produce business. Mr. Bennett is now conducting the business alone, just across First street from the Western Hotel. Read his new advertisement on second page.

CAPITOL, OLYMPIA, Dec. 11th, 1867.

DR. GROSS, Portland—*Sir:* I have been in the habit of using the "HENLEY ROYAL BALSAM" in my family, who reside at Walla Walla, Walla Walla county, W. T. I am now at Olympia, attending the present session of the Legislature, and the climate is so different from that of Walla Walla county that I have taken cold, and I have endeavored to purchase some of the medicine here but was unable to do so. Please send a bottle up immediately by mail. I have used nothing else in my family and cannot get along without it. Yours truly,

J. M. VANSYCKLE.

HELMBOLD'S FLUID EXTRACT BUCHU
Is a certain cure for diseases of the BLADDER, KIDNEYS, GRAVEL, DROPSY, ORGANIC WEAKNESS, FEMALE COMPLAINTS, GENERAL DEBILITY,
and all diseases of the URINARY ORGANS,
whether existing in MALE OR FEMALE,
from whatever cause originating and no matter of HOW LONG STANDING.
Diseases of these organs require the use of a diuretic. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the HEALTH AND HAPPINESS, and that of Posterity, depends upon prompt use of a reliable remedy
HELMBOLD'S EXTRACT BUCHU,
Established upwards of 18 years, prepared by
H. T. HELMBOLD, Druggist,
504 Broadway, New York, and
jan6dlm 104 South 10th Street, Philadelphia, Pa.

DR. G. W. COOL, DENTIST.
THOSE WHO DESIRE FIRST CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold; it makes the plate twice as strong and one third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from roughing the plate, and from turning it black, which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received, December 3d, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.
OFFICE—temporarily at the private parlor of the New Columbian Hotel. dec31-3ptf.

HELMBOLD'S FLUID EXTRACT BUCHU is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

PERRY DAVIS' VEGETABLE PAIN KILLER.
THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!
At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivaled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

TAKE NO MORE UNPLEASANT AND UNSAFE REMEDIES for unpleasant and dangerous diseases. Use HELMBOLD'S EXTRACT BUCHU AND IMPROVED ROSE WASH.

TEETH EXTRACTED
By Dr. Richardson's Apparatus, Lately Improved by Dr. Koehler, with Ether Spray.
WILLIAM KOEHLER, DENTIST.
OFFICE AND RESIDENCE—Southwest corner Front and Yamhill Streets, opposite E. J. Northrup & Co.'s Hardware Store.
Extracting Teeth by Dr. Richardson's apparatus, with Ether Spray, is local in its application, the tooth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxyde (laughing gas.)
N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office.
Dental Consultations Free of Charge to all.

MANHOOD AND YOUTHFUL VIGOR are regained by HELMBOLD'S EXTRACT BUCHU.

Just Cause for being Alarmed.—When a Cough has been running for a long time, and you begin to feel a pain settling in upon your lungs, attended with tightness across the chest, it is high time that you should awaken to the danger of your disease, which is fast running into Consumption. Now, before it is too late, use ALLEN'S LUNG BALSAM, which will cure the disease, and all will be well with you. For sale by the Dealers in Family Medicines generally.

ENFEEBLED AND DELICATE CONSTITUTIONS, of both sexes, use HELMBOLD'S EXTRACT BUCHU. It will give brisk and energetic feelings, and enable you to sleep well.

CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; Invigorates the organs of digestion and the bowels; Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.
NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.
The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.
Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.
As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.
Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

Negro Equality.

[From the Chicago Republican.]

This is the phrase with which the reactionists attempt to stigmatize and misrepresent the doctrine of political and civil equality. Daily a great outcry is raised that society is retrograding, and civilization getting ready to fall to pieces, under the prostrating and enervating influences of radical innovations. At the idea that a negro shall ride with white people in the same street or railroad car, having the first comer's right to a choice of seats, expostulation grows frantic and indignation furious. Words fail to character so foul a wrong—so monstrous an iniquity.

How convenient it is for men to forget the past when selfish interests are promoted by loss of memory! Who does not remember that, in the days of human bondage, it was the boast of the slaveholders that their chattels had a higher social position than the blacks of the North—that the children of the master were companions of the children of the slave, the first years of childhood, and constantly associating with each other in playing ball, shooting marbles, and sports of yard and field—that the two races grew up together, forming tender attachments that accompanied them to the grave—and that the close and constant contact of the inferior with the superior was a patriarchal relation full of salient beauty and ameliorating consequence?

When a wealthy and cultivated Southerner swept along the streets of Washington in a costly vehicle, drawn by an expensive match-span of horses, his slave driver next to him on the same seat, it was triumphantly asked what Northern gentleman would dare to ride with a free negro companion. When a chattel-owning lady took a journey on the railroad, she carried with her in the same car, on an adjoining or the same seat, her black nurse or waiting maid, and this procedure was trumpeted far and wide as conduct that no Northern lady would venture to imitate for fear of damaging her social position.

Now these actions that were once subjects of such extravagant laudation, have ceased to be examples worthy of imitation. They are rather to be repudiated as rank heresies, that threaten to [illegible] the foundations of civilized society. Why? Was not the negro, personally and bodily, more offensive to the olfactories of men and women in the days of bondage than since freedom has [illegible]? At an increase of that cleanliness which is akin to godliness? Is not the ex slave more intelligent and capable than the slave? Then why repugnance to an association once considered commendable and exemplary? Because it formerly exemplified difference of condition, rights and privileges; because the servant, as property, could not in any sense be mistaken for an equal of the [illegible], but must be regarded everywhere merely as a convenient appendage to the owner's self-importance. Then the black man was only [illegible] link between man and brute; now he is a full-fledged human being, hereafter to stand on the same civil and political platform as his quondam master.

The [illegible] of the mingled rage and disappointment that comes up from the South is because [illegible] is to be recognized as belonging to the brotherhood of man. That one who has a black skin should be regarded as having the same [illegible], the same moral responsibilities, the same sympathies, the same ambitions, the same [illegible] who has a white skin, is considered a doctrine of monstrous proportions and tendency. With hands uplifted in feigned horror, the people are called on to crush out influences so [illegible] and injustice.

Clerkenwell Prison.

[From the Detroit Post, Dec. 16.]

Clerkenwell Prison, which the Fenians have attempted to blow up, is situated in Clerkenwell, one of the most populous parishes of London. It is a brick building, surrounded by a wall some [illegible] feet high, with an entrance in the centre, [illegible] by a wide drive [illegible] fifty feet deep [illegible] the outer wall. The houses facing the front of the prison are not more than forty feet distant, and [illegible] the working [illegible], many being [illegible] watchmakers and jewelers. Clerkenwell for many years has been noted for the vast number of artisans devoted especially to these trades residing within its limits. The back of the [illegible] Cold Bath Fields—or what used to be the same before they were built up—celebrated as the [illegible] spot for Radical meetings in the time of Thistlewood, "Radical Hunt," and others, in later days [illegible] as Radical leaders, several of whom afterward had to suffer within the [illegible] walls for acts committed within a few [illegible] of them.

If the front wall was the place where the Fenians [illegible] the attempt (and it must have been there or at the back, as residences stand close to the wall at each end) the opposite residences would [illegible] by the explosion. They consisted of ordinary brick houses, not at any time too strong, [illegible] and occupied by working people. They were three stories high, and [illegible] with [illegible], each story having at [illegible] and a [illegible]. "If twenty [illegible] (as the [illegible] informs us) were [illegible] killed and wounded is [illegible] likely to be over than under figures reported.

[illegible] Bay Company.

[The [illegible] Spectator.]

The [illegible] of the Hudson's Bay Company states that the returns of the [illegible] for as the quantity [illegible], although a partial falling off [illegible] in martens, and although [illegible] portion of the returns from Mackenzie [illegible]. In [illegible] Land [illegible] are symptoms of a disposition to [illegible] having emigrated [illegible] from [illegible]. In view of this, the Directors state that they are more than ever anxious for [illegible] conclusion of the question pending between the Company and her Majesty's Government. They may rely upon one thing, viz:

That no [illegible] go from Canada, or anywhere else, and take up their abode in Rupert's Land [illegible] they for one moment imagined it probable that that [illegible] would long remain under the [illegible], or rather mismanagement, of the Hudson's Bay Company. Although the rates at which [illegible] have been sold this year have been somewhat lower than [illegible], the committee of [illegible] that the usual interim dividend of eight shillings per share, should be paid in January. With a view of making the Canadian authorities more ready to come to [illegible] the Company have lately revived the report about negotiations with the United States [illegible] for the transfer of the Northwest territory to the Americans.

HIRAM SMITH'S

Ophthalmic Panacea!

In bringing the above-named NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Prussia, where the science of Medicine is so thoroughly taught and practised, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance, in which, however it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent to the propriety of giving it, general and wide spread circulation, and, as previously in his native country, seemed only desirous of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the inventor to more widely disseminate the knowledge of its virtues, finally became himself the possessor of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science* and all experience have failed.

He wishes it to be understood that it will cure *all* diseases of the eye, whether of recent or long standing, but its greatest power is exhibited when it is applied to old *Chronic Cases* of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial, and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year, cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, FIFTEEN and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons, living at and in the neighborhood of Harrisburg, Linn county:

ALEXANDER L. WALKER was cured of inflamed eyes, of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs. MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

R. R. MOORE, of the firm of Moore, Garst & Baber, of Harrisburg, had granulated lids for six years.

NATHANIEL BELL, of Clackamas county, had inflamed eyes—a bad case—for over fifteen years.

ROBERT RAMPEY and W. D. PORTER, of Harrisburg; JOHN M. HOLLOWAY, of Linn County; G. R. WARD, of Lane County, were all afflicted, more or less severely, with diseased eyes, and were cured by the Ophthalmic Panacea.

All the above named persons have given lengthy testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

CARD.

DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men, women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs [illegible] fully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with, a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

REDINGTON & CO'S

ESSENCE OF

JAMAICA GINGER

This valuable preparation, containing, in a highly concentrated form, all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for, while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

Sold by Druggists everywhere, and at wholesale by REDINGTON & CO., Agents for the Pacific Coast, San Francisco. je24d7m4p

DR. J. C. YOUNG,

Medical and Surgical INSTITUTE.

**** CONSULTATION, IN ALL CASES, FREE.*

**** CURES GUARANTEED, OR NO PAY REQUIRED.*

**** IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call [illegible] attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping [illegible] its insidious [illegible] the very life of its victims; in the treatment [illegible] the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may [illegible] my motive; but the desire to point out to those who [illegible], languish and decay, the true [illegible] of their [illegible], is too great an incentive to be forced into abeyance. How attended the terrible [illegible] of Seminal W[illegible], no one but the practical specialist who [illegible] his time to its treatment can tell; but its [illegible] can be [illegible] by the most [illegible] by [illegible] the following [illegible] toms; Weakness of the back and [illegible] feelings, loss of [illegible] cold feet or [illegible] pained by hot [illegible] of consumption; short breath; flushings of the face; aversion to society; [illegible] of the [illegible] loss of [illegible], nightly emissions; colorless; slight discharge upon the least excitement; trembling, palpitation of the [illegible], irregular appetite; variable temper, etc.

YOUNG MAN, if you experience any of the [illegible] symptoms enumerated above, pause [illegible] to [illegible] the [illegible] in which you may [illegible] health and happiness. You may feel [illegible], but if you have ever practiced the vice of [illegible] even in the slightest degree, you have the seeds of [illegible] in your system, and their [illegible] or later, dash the fair edifice of your [illegible] to the ground, leaving you a help[illegible] that declares itself at once, [illegible] est danger; for while the patient is [illegible] affection of the Heart, [illegible], Brain, or [illegible] tions, he sinks into a [illegible] that soon [illegible] to the list of the [illegible] of the terrible [illegible] Weakness.

See in the best form and [illegible] the poor victim of the [illegible] vice! [illegible] the [illegible] of the [illegible] active [illegible] in the hollow [illegible] and dull eye! [illegible] is one of the [illegible] symptoms. At first it is easily shaken off, but it [illegible] into a great [illegible]. The mind becomes [illegible] days of [illegible].

It is the nature of the complaint to [illegible] changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest [illegible].

Marriage is sought by a natural [illegible] as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the [illegible], suddenly fails, and he finds himself in a deplorable [illegible] from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepid, and degenerate. This is applicable to both sexes, whether married, or single, and to all times of life.

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them, but by [illegible] application secure to [illegible]. The only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs, [illegible] in time, always guaranteed, and full and [illegible] vigor restored.

The afflicted are [illegible] of every [illegible].

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute, the number of cases of V[illegible] that have been treated, show a record unequaled by any [illegible] in the world, and the success that has invariably marked the course of treatment,

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a thoroughly established medical principle that these [illegible] by entering the blood, ruin the [illegible] life.

The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long [illegible], without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or without. The diet need not be changed. Cures always guaranteed, or no pay required.

IMPORTANT TO F[illegible].

When a female is in trouble or afflicted with [illegible], and requires medical or surgical assistance, the inquiry should be, "Where is there a physician competent to administer relief, and whose respectable standing in society will recommend him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous or designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble. At in whose secrecy the utmost confidence can be placed, consultation by letter or otherwise, free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided, when desired, where can be had all the advantages of unremitted attention of the Doctor, and the most skillful and and faithful nurses.

To Correspondents.—Persons, either male or female, residing in the interior, are often deterred from consulting the Doctor because they cannot spare the time, nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint, will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen by no one except the Doctor, and will be treated with the utmost confidence, and either be returned or destroyed.

Consultation Free.
